

# GTI MiniMatcher

COLOR VIEWING SYSTEMS

Model MM-1e

Model MM-2e

## A Compact Multi-Source Viewing System For The Inspection And Color Discrimination Of:

*Inks, Paints, Plastics, Textiles, Paper, Colorants, and other colored materials...*

*Perfect application for Cosmetics, Coatings, Printing & Packaging, Advertising & Graphic Design, Interior & Fashion Design*

*Three Light Sources...providing Artificial Daylight, Store Light, & Home Light.  
An essential tool for the detection of metamerism\*!*

The MM-1e & MM-2e contain three light sources: **D65** (Daylight), **CWF** (Cool White Fluorescent-Store Light), and **Incandescent** (Home Light-Illuminant A). All units can be ordered with an optional UV source and/or daylight lamp timer. (For applications in the Graphic Arts, MiniMatchers are available with a D50 Daylight source.)

Ordering Info: For D65 Daylight source, order Model MM-1e/65 or MM-2e/65.  
For D50 Daylight source, order Model MM-1e/50 or MM-2e/50.
